A FIRST CLASS SERVICE REQUIRES A FIRST CLASS SERVICE

Contact: Alan Gilbert

Press Release No: 4-14

Release date: Immediate

Date: 11th Apr

BSRIA member Klimatec who specialise in the installation, service and maintenance of all types of air conditioning systems, have recently purchased 11 Testo 557-3 manifold kits from BSRIA Instrument Solutions.

Klimatec who are recognised by their customers as providing a first class service demand the same from their suppliers, which is why they have chosen BSRIA Instrument Solutions as their preferred supplier for their instrumentation purchases. "We were impressed with how quickly BSRIA responded to our enquiry, and the level of understanding they had of our business and the need to provide the right equipment for our application and the need to ensure it was delivered right allowing us to continue to provide a first rate service to our clients" said Giuseppe Forgione of Klimatec.

In addition to purchasing new products from BSRIA, Klimatec engage BSRIA Instrumentation Solutions to calibrate all of their instrumentation in their UKAS accredited laboratory, knowing the importance of instrumentation to their customer, BSRIA have a dedicated calibration team that will minimise the amount of time an instrument is out of action, whilst ensuring that it is calibrated to necessary standards.

"We understand that our clients businesses are dependent on the need to have the right instrument available at any time, especially if they are offering a call out service, therefore whether it is a sale, hire or calibrating their instruments we work hard not just to meet their needs but to exceed them" said Alan Gilbert General Manager of BSRIA Instrument Solutions.

By providing sales, hire and calibration matched with first class customer service BSRIA are perfectly placed to provide a one stop solution for all instrumentation needs.
